

WBC Summer 2019

Why Row for Wyandotte this Summer?

The primary mission of the WBC summer program is to win races. You don't need to be great to start, you just need to commit & the WBC will help you find success.

Five water practices per week will focus on technique. You will become a more efficient rower. Two land practices per week will focus on making you stronger. The strength and power you gain will get your boat down the course faster each week.

When you return to your team next season, you will be a much better oarsman or oarswoman. The coaching, the experience, and the strength you will gain by rowing for the WBC this summer WILL translate to more medals and faster boats.

Join the Winning Tradition in Wyandotte

The Wyandotte Boat Club has crossed the finish line first 96 times at the Royal Canadian Henley since the 1920s. Last Summer, the Wyandotte women continued the tradition of success by bringing home Henley Gold for the second year in a row! We want you to join us. We want you to continue the Wyandotte tradition of victory. We want you to row for the Wyandotte Boat Club!
